# Atlas of anatomical pathology of the porcine respiratory system.

*Serafín Gómez Cabrera*

**Atlas of anatomical pathology of the porcine respiratory system.** Serafín Gómez Cabrera

This atlas of anatomical pathology allows the identification of the various lesions of the porcine respiratory system. The images that are included focus on the morphological bases of the porcine respiratory pathologies and their relationship with their causes. Each of the pictures, carefully chosen by the author because of their excellent visual and descriptive quality, are accompanied by a short text, with gross and microscopic descriptions that are essential to the understanding of the disease and the establishment of a diagnosis.
