From C.S. Forester onwards, the tale of high adventure on the sea has produced some splendidly vivid writing; in fact, as genres go, there have probably been more consistently impressive creations in this field than in all historical fiction. With such a legacy looming behind him, a new author has to be able to present something special in order to make any kind of mark. With *Kydd*, Julian Stockwin quickly signals that he is an innovative and accomplished fresh talent in the field, with a complex and richly drawn hero (always so necessary in the naval tale) at the centre of an intelligently structured narrative. Thomas Paine Kydd is press-ganged in Guildford, and is wrenched from his safe profession of wig making to join the crew of the 98-gun line-of-battle ship Duke William. We have been treated to the horrors of the below-deck life of the common seaman before, but Stockwin renders these scenes as exuberantly as any of his predecessors. He is also particularly good at delineating the changing character of his hero, as Kydd comes to admire the skills of the seamen and (of course) becomes a true sailor himself. Although, at times, the book has the feel of the setting up of a new series, it's none the worse for that. Stockwin can command your attention with ease when his writing has such unyielding power as: 'The boatswain's mate advanced, taking the cat-o-nine-tails from the bag. He took a position a full eight feet away to one side, and drew the long deadly lashes through his fingers, experimentally sweeping back to ensure that there was enough clear space to swing it. Kydd stared across the few yards of empty deck at the man's pale, helpless body. At the instant it flew downward the drumbeats stopped, so the sickening smack of the blow came loud and clear. Donnelly did not cry out, but his gasp was high and choked. The nine tails not only left long bruised weals, but at every point where they landed, blood began to seep.'--*Barry Forshaw* Pressestimmen

Praise for Julian Stockwin (-)

'Another thundering good read for those who love seagoing stories in the Hornblower mould' (*Peterborough Evening Telegraph*)

'Stockwin tells his story with crispness and clarity. His characters are simply but well-drawn, and events happen at a pace to keep readers involved. As always, his display of seamanship savvy is one of the best in the genre' (*Navy News*, United States)

Stockwin paints a vivid picture of life aboard the mighty ship-of-the-line... the harsh naval discipline, the rancid food, and the skill of the common sailor are all skilfully evoked. (*Daily Express* on KYDD)

In Stockwin's hands the sea story will continue to entrance readers across the world. (*Guardian* on KYDD)

I was soon turning the pages almost indecently fast . . . Roll on, the promised adventures of Kydd and Renzi. (*Independent* on KYDD)

The appeal of the story is in the telling, which is atmospheric, authentic ... The author had a long career in the Royal Navy, which adds to his prose that extra dash of salty realism. (*Publishing News* on MUTINY)

The eighth and best yet in Julian Stockwin's hugely popular seafaring series for readers who love Sharpe and Horatio Hornblower
