New Material and extended body length helps to eliminate heel and toe depressions, particularly around the plug areas Grid groove pattern - A more spaced tread to allow your feet to sink closer to the board. Compounded with a grippy surface on the tread to create an extremely textured feel. Multi-directional groove patterns respond to the different forces generated between the surfer and the board. The center panel faces forward and the side panels direct inwards so the traction pushes back against your feet during normal movements. Spine, ergonomic arch. Lunar rounded performance kick.
