About the Author

Paul Nielsen, Microsoft SQL Server MVP, is an author, hands-on database developer, and trainer specializing in data architecture and Microsoft SQL Server technologies. Besides holding several certifications, he is the Subject Matter Expert (SME) for the Microsoft Official Course, 2784: *Tuning and Optimizing Queries using Microsoft SQL Server 2005*. Visit www.sqlserverbible.com, where he hosts screencasts that walk readers through many tasks in the *SQL Server 2005 Bible*. The site also includes sample databases, sample code, hot SQL Server links, and additional articles and white papers.
